DEDICATED TO THE
1rst
GRADUATING CLASS OF
THE 4 YEAR PROGRAM

Professor and Director
E.L. Empey, Ph.D.

I extend my special congratulations to the first graduates of the new four-year programs. For some time the staff of the School have looked forward to teaching fourth year courses, and they have not been disappointed this year. It has been exciting and rewarding to observe you handling senior study so capably; indeed I think all the staff members would agree with me when I say you have surpassed even our own high expectations for you.

Professional roles are changing, and over the coming years you will be required to adapt and change continuously if you are to perform effectively. We have every confidence in your ability to meet the challenge successfully, and we wish you satisfaction and happiness in doing so. Your education is just beginning, but if eagerness with which you seemed to tackle your fourth year studies this year is any indication, I predict that you will enjoy continuing your education for many years to come. We shall enjoy working with you as professional colleagues and will be happy to study alongside you when you return to take further courses or attend workshops. My best wishes to you all.
